

TASTINGS

These flights have been designed to give you the best possible overview of an entire category, clearly there are always more bottles to sample and enjoy. Each flight is joined by room temperature bottle of water to be consumed, or to reduce the strength of some whiskies. You will also be presented with an empty glass so you may try your hand at blending your own tipples. The last sample on each flight is marked “mystery”, so please try to take a guess at what it is, but if that seems too bold, our staff will be happy to tell you the great surprise that lays unmarked in the final glass. Drink up, and relax, learning should always be this much fun!
